

Summer Cover Crop Field Day

Corvallis Plant Materials Center

Wednesday, July 26, 2017 • 9-11 AM

Learn about:

- Adding diversity to your crop rotation
- Legumes for providing nitrogen to your next crop
- Quick-growing covers to smother weeds
- Flowers to attract bees & beneficial insects
- Growing covers without irrigation

- ❖ Irrigated and dryland plots
- ❖ 21 species/varieties of warm season cover crops on display

For questions contact Annie Young-Mathews at anna.young-mathews@or.usda.gov or (541) 801-2282
